The most productive opportunity to reach your organization's diversity recruitment goals in 2020 will be WE20. Just a few days in New Orleans, Louisiana will give you access to thousands of engineering and technology students and professionals. Women are changing the face of engineering as they practice curiosity and create innovative solutions to challenges around the world.

Together, let’s change the lives of talented and accomplished women. Join SWE from **November 5 - 7, 2020** as a Career Fair exhibitor and sponsor at the world’s largest conference and career fair for women in engineering!
WE20 WILL HELP:
- Employers seeking a strong recruitment ROI
- Provide professional development to current employees
- Support the futures of women seeking to affect change around the globe through a career in engineering and technology

NEW ORLEANS, LOUISIANA: THIS 300 YEAR-OLD CITY IS SO MUCH MORE THAN MARDI GRAS!

The Big Easy will make it easy for the SWE community to have an incredible event experience. NOLA has invested in numerous enhancements including an expanded airport and a renovated convention center that will be the WE20 home base. The revived Ernest N. Morial Convention Center will feature private outdoor event space, technology enhancements and a restyling of meeting and public spaces.

The city’s famous riverfront is getting an update, too! The Spanish Plaza is being redesigned and a major revitalization project is underway to open public access along the river and well into the thriving Marigny district. Of course all this exciting renewal just makes the unique local flavors, sounds and experiences of New Orleans that much more special. WE20 will be an event that will inspire our attendees long after we end three days of practicing curiosity together!
